SUPPLEMENTARY INFORMATION:

Federal Highway Administration (FHWA)

Title: Statement of Materials and Labor used by Contractor on Highway Construction Involving Federal Funds.

OMB Number: 2125-0033.

Type of Request: Reinstatement, without change, of a previously approved collection for which approval has expired.

Affected Public: Contractors.

Abstract: The form "FHWA-47 "Statement of Materials and Labor Used by Contractors on Highway Construction Involving Federal Funds" is needed in order to obtain information on the usage of materials and labor in highway construction. Title 29 U.S.C. 2 authorizes the Department of Labor to collect the labor-related information using its own forces or by getting the information from other Federal agencies. An informal agreement has been reached for FHWA to collect the desired data for the Department of Labor. This information is used by

FHWA for estimating current material usage and cost distribution on Federal-aid highway construction contracts to aid in planning for future requirements based on anticipated program levels. There is also considerable interest by industry, particularly suppliers of highway construction materials, for the usage information derived from the FHWA-47 forms. This data is collected from contracts of \$1,000,000 or more on the National Highway System and is not considered confidential. The respondent must submit the FHWA-47 form after the project has been completed.

Estimated Annual Burden Hours: 7,475.

Number of Respondents: 650.

Address: Send comments to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725-17th Street, NW., Washington, DC 20503, Attention DOT Desk Officer.

Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
